## **Application**

Inflatable boats provide versatility in response operations for both transportation and active duty in sheltered water operations.

## **Description**

Rigid hull inflatable boats equipped with outboard motor (15 to 70 HP); molded fibreglass, plastic or metal hulls (including floor) with a fabric air filled flotation collar that makes up the bow and sides of the boat. The rigid hull provides stability for operation of the boat in most sea conditions. The flotation collar supplies buoyancy (with reserve), stability and absorbs wave energy to soften the ride in rough conditions.

# **Operating Data**

## **Ancillaries**

Speed: up to 30 knots

/HF

Some equipped with radar
